Professional GRADE
FOR STONE, TILE + GROUT

PRODUCT CATALOGUE

Professional grade sealers, cleaners, problem solvers and grout colourants for stone, tile + grout.

2026 / 27 EDITION · MADE IN AUSTRALIA

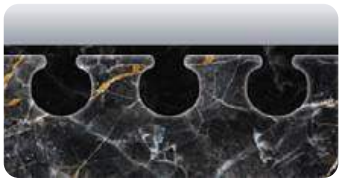
sealersplus.com.au

THE SEALERS PLUS ADVANTAGE

Sealers Plus (an Aqua-Seal brand) is a proud Australian manufacturer of **Professional Grade** care and maintenance products for stone, tile and grout. Our range of sealers, colour enhancers, grout colourants, cleaners and problem solvers is formulated, tested and made at our own facility in Kurnell, NSW, for Australian conditions, for both domestic and commercial use. Three generations and over 40 years of hands-on stone, tile and grout experience go into every product, and into the advice you get when you call us.

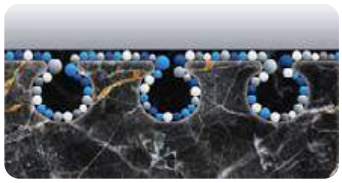
Use them on natural stone such as marble, travertine, limestone, granite, sandstone, slate and bluestone, on porcelain and ceramic tiles, terrazzo, concrete, pavers, terracotta and grout.

How sealers work



Microscopic view of the open pores and gaps in a porous surface.

Open pores absorb liquids quickly, so stains go deep and are hard to remove.



Nano-sized sealing molecules penetrate, bond and reduce the size of the open pores.

Liquids sit on the surface for longer, giving you time to wipe them up.

Clean · Seal · Maintain · Restore

1. Clean

Start with a clean surface. pH neutral and deep cleaners lift dirt, grease and grime without damaging stone, tile or grout.

2. Seal

Penetrating sealers reduce porosity, so spills soak in slower and less deeply, giving you time to wipe them up.

3. Maintain

The right everyday cleaner keeps sealed surfaces looking their best and helps the sealer last longer.

4. Restore

Problem solvers tackle grout haze, efflorescence, rust, oil stains, old coatings and slippery tiles.

Our technology

NanoPlus	Nano-sized sealing molecules penetrate deeper into the pores of the surface.
RapidPlus	Fast stain protection: Aqua-Seal Gold+ is stain resistant in about 4 hours.
ActivePlus	Antibacterial action in our disinfecting cleaners.

Colour coded labels

Every label is colour coded so the right product is easy to find: **blue** = sealers, **green** = cleaners and **orange** = problem solvers.

PRODUCT SELECTOR

SURFACE FINDER

SEALERS Penetrating & coating sealers to protect, enhance & seal

Sealing reduces porosity, so it slows how fast and how deep a stain can soak in and makes everyday cleaning easier. Sealers are not stain proof or waterproof. Our penetrating sealers are breathable, non-yellowing and UV resistant. The pictures beside each sealer show what it does.

NATURAL LOOK & COLOUR ENHANCING

OUR FIRST RECOMMENDATION FOR A NATURAL LOOK

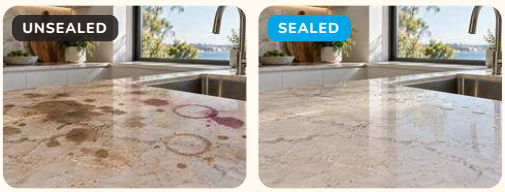
Aqua-Seal Gold+

SCAN ME

Premium Natural Look Penetrating Sealer – NanoPlus Formula

+ Natural Look, No Sheen – Breathable Penetrating Sealer
+ Our Highest Level of Stain Resistance – Water, Oil, Grease, Food & Grime
+ Stain Protection in 4 Hours – Full Cure in 24 Hours
+ Low VOC, Water Based, Non-Flammable, Non-Yellowing & UV Resistant
+ Also a Pre-Grouting Sealer for Quick, Easy Grout Clean-Up

250 mL 142-250 | **1 L** 142-001 | **4 L** 142-004 | **15 L** 142-015 | **20 L** 142-020



Unsealed stone soaks up spills, so stains go deep. Sealed with **Aqua-Seal Gold+**, spills sit on the surface for longer so you can wipe them up before they soak in, and the stone keeps its natural look.

Spray'N'Seal (For Small Areas)

SCAN ME

Aim, Spray & Seal – Premium Natural Look Aerosol Sealer

+ Natural Look, No Sheen – Breathable Penetrating Aerosol Sealer
+ Fast Drying – Clear, Non-Yellowing & UV Resistant
+ No Mixing, No Tools – Ideal for Grout Lines & Touch-Ups

For larger areas, use **Aqua-Seal Gold+**.

450 mL aerosol 155-450

The same natural look protection in an aerosol: spills wipe up before they soak in. Ideal for grout lines, touch-ups and small areas.

Enhance'N'Seal

SCAN ME

Premium Sealer & Colour Enhancer – Enhance, Darken, Highlight & Seal

+ Colour Enhanced, Darker, No Sheen Look – Breathable Penetrating Sealer
+ High Stain Resistance – Oil, Food, Grease & Grime
+ NanoPlus 100% Actives – Non-Flammable & UV Resistant

250 g 160-250 | **1 kg** 160-001 | **4 kg** 160-004

Brings out a richer, darker colour in the stone with no sheen, and adds stain protection at the same time.

COATING SEALERS (FILM FINISH)

Gloss'N'Seal

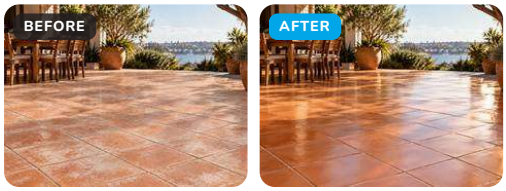
High Gloss Coating Sealer for Porous, Rough & Textured Surfaces

SCAN ME

+ High Gloss Film Finish for Rough, Textured, Porous Surfaces
+ Scuff Resistant, Hard Wearing & Durable – Easier to Clean
+ Add Grip-It P to the Final Coat for Extra Slip Resistance

(Cannot be used if Condense Plus or Ultra-Block are used first)

1 L 162-001 | **4 L** 162-004



Dull, porous terracotta and textured surfaces gain a durable high gloss film finish that is easier to clean.

Porcelain Plus

High Sheen Coating Sealer for Rough or Highly Textured Ceramic & Porcelain Tiles

SCAN ME

+ High Sheen Film Finish for Rough, Highly Textured Tiles
+ Makes Rough, Hard to Clean Tiles Easier to Clean
+ Add Grip-It P to the Final Coat for Extra Slip Resistance

1 L 167-001 | **4 L** 167-004

Rough, highly textured tiles that trap dirt gain a high sheen finish and are easier to keep clean.

INSTALLATION SEALERS

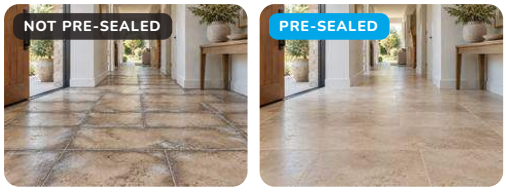
Ultra-Block

Installation Sealer for Pre-Sealing, Dip-Sealing & Six-Sided Sealing

SCAN ME

+ Six-Sided, Dip, Underside & Pre-Grouting Sealing
+ Helps Reduce Picture Framing, Efflorescence & Adhesive Blotch Marks
+ Only One Coat Needed – Ready to Install After 24 Hours

1 L 143-001 | **4 L** 143-004 | **15 L** 143-015 | **20 L** 143-020



Pre-sealing before installation helps reduce picture framing, efflorescence and adhesive blotch marks, for a more even finish.

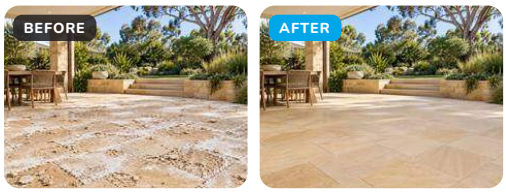
Condense Plus

Consolidator, Densifier & Strengthener – NanoPlus + RapidPlus Formula

SCAN ME

+ Helps Consolidate, Densify & Strengthen Soft or Friable Stone
+ Helps Reduce Efflorescence, Salt Attack, Picture Framing & Mineral Blooming
+ Water Based, Breathable, VOC <1 g/L – 24 Hour Cure

1 L 164-001 | **4 L** 164-004 | **15 L** 164-015 | **20 L** 164-020



Helps consolidate, densify and strengthen soft or friable stone, and helps reduce salt attack and efflorescence.

GLASS SEALER

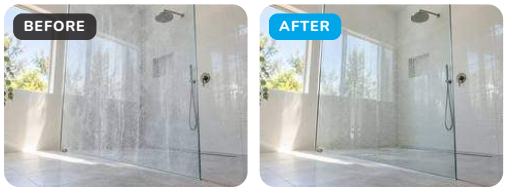
AquaShield+

Premium Glass & Shower Tile Sealer – Nano Easy-Clean Coating

SCAN ME

+ Helps Reduce Build-Up of Soap Scum, Dirt, Hard Water & Lime Scale
+ Water Beads & Runs Off – Glass Stays Clearer for Longer
+ Wipe On, Polish Off – Ready in 1 Hour

50 mL 145-050 **125 mL** 145-125



Clean the glass first, then AquaShield+ makes water bead and run off, helping glass stay clearer for longer.

GROUT COLOURANT

Colour'N'Seal

Premium Grout Colourant to Renew, Re-Colour & Seal Grout

SCAN ME

+ Re-Colour, Renew & Seal Existing Grout in One Step
+ NanoPlus Water Based Modified Epoxy Formula
+ Helps Resist Stains from Oil, Food, Grease & Grime
+ Even, New-Look Grout Joints – Walls & Floors, Indoor & Outdoor

250 mL · 25 colours

Tired, stained or patchy grout is re-coloured and sealed in one step, for even, new-look grout joints.

COLOUR'N'SEAL COLOUR RANGE · 250 ML

+ Ready to Use – Spray'N'Wipe, Rinse Free & Streak Free
+ Cleaner, Sanitiser & Commercial Grade Disinfectant
+ For Natural & Engineered Stone Bench, Table & Bar Tops

750 mL spray 115-750

SCAN ME

When to re-seal: the water drop test

Every few months, drip a little water onto the sealed surface in a few spots, including high-traffic areas. If the water darkens the surface and soaks in quicker than before, it's time to clean and apply a maintenance coat of the original sealer. Absorption is the test, not beading. **Never pressure wash:** use a mop, brush or scrubbing machine and rinse with a low-pressure hose.

PROBLEM SOLVERS For the most common problems on stone, tile & grout

With over 40 years in tile and stone, we have built one of the most complete ranges of **Professional Grade** problem solvers: oil and food stains, rust, grout haze, efflorescence, old sealers and coatings, slippery tiles and more. Always test first, and check that acid based products are only used on acid-resistant surfaces.

STAIN REMOVERS

Active Plus

100% Actives Triple Action Cleaner, Deodoriser & Stain Remover

+ Helps Remove Oil, Food, Grease & Grime
+ Also Leaf Marks, Tannins, Coffee, Tea, Algae & Mould
+ Non-Acidic – Suitable for Acid-Sensitive Surfaces

300 g 130-300 | **1 kg** 130-001 | **2 kg** 130-002

SCAN ME

Poultice Plus

Ready to Use Stain Remover for Natural Stone, Terrazzo & Concrete

+ Heavy Duty Stain Remover – Pre-Mixed Paste
+ Helps Remove Oil, Food, Grease, Coffee, Tea & Red Wine Stains
+ Non-Flammable, Ready to Use – Just Apply & Cover

500 g 124-500

SCAN ME

Poultice Powder

Heavy Duty Stain Remover Powder for Deep Set Oil, Food & Grease Stains

+ Draws Deep-Set Oil, Grease & Food Stains Out of Porous Surfaces
+ Mix with Water, a Problem Solver or a Diluted Cleaner
+ For Natural Stone, Terrazzo, Concrete, Bricks & Pavers

250 g 125-250 | **800 g** 125-800 | **2 kg** 125-002

SCAN ME

Rust Away

Rust, Iron, Bore & Metal Oxide Remover – pH Neutral, Non-Acidic Formula

+ Removes Stubborn Rust, Iron, Bore & Metal Oxide Stains
+ pH Neutral, Non-Acidic Formula – Does Not Etch the Surface
+ Fast Acting – Stain Turns Purple as It Works

250 mL 135-250 | **1 L** 135-001 | **4 L** 135-004

EFFLORESCENCE

Eff-Shield+

Water-Repellent Admixture to Help Prevent Efflorescence

+ Water-Repellent Admixture – Just Add to the Mixing Water
+ Helps Reduce Efflorescence, Picture Framing & Moisture Staining
+ For Grout, Tile Adhesive, Screed, Mortar, Render & Concrete
+ Breathable, No VOC – Step 1 of THE EFF-CONTROL+ SYSTEM

SCAN ME

250 mL 180-250 | **1 L** 180-001 | **4 L** 180-004 | **15 L** 180-015 | **20 L** 180-020

THE EFF-CONTROL+ SYSTEM

Efflorescence is the white, powdery salt deposit that can appear on grout, tiles, stone and pavers. Our three-step system helps you prevent it, treat it and clean it up.

1 · PREVENT
Eff-Shield+
Add to the mixing water of grout, adhesive, screed and mortar.

2 · TREAT
Eff-Ective+
Non-acidic efflorescence cleaner for all surfaces.

3 · CLEAN
OxiTreat+ / **Oxi Gel+**
Heavy duty acid cleaners for acid-resistant surfaces only.

For architects, specifiers & trade

Send us the surface, finish, location and area of your project and we will recommend the right cleaning, sealing and maintenance system. Technical Bulletins and Safety Data Sheets for every product are available on our website or on request.

STAIN & PROBLEM GUIDE

Act quickly, identify the stain and always test first. The result depends on the surface, how long the stain has been there and whether the surface is sealed. If in doubt, call us on **+61 2 9521-4000** before you try anything.

Problem	Use	Notes
Oil, grease, food, coffee, wine, cosmetics	Poultice Plus · Poultice Powder · Active Plus	Poultices draw the stain out as they dry (**Active Plus** for lighter marks). Natural stone, terrazzo and concrete. Repeat for deep stains.
Rust, iron & bore water	Rust Away	Non-acidic, so it suits acid-sensitive stone like marble, limestone, travertine and bluestone.
Fertiliser	Rust Away	Non-acidic. Lifts fertiliser marks from paving, pots and garden edges. Test first.
Mould, mildew, algae, moss & lichen	Active Plus	Oxygen cleaner for outdoor paving, pool areas, walls and grout.
Leaf, tannin & bird dropping stains	Active Plus	Mix with warm water, or use as a paste on deep marks.
Efflorescence (white salt deposits)	Eff-Ective+ · OxiTreat+ / Oxi Gel+	Eff-Ective+ is non-acidic, for all surfaces. Never use OxiTreat+ or Oxi Gel+ on marble, limestone, travertine, terrazzo or other acid-sensitive surfaces.
Efflorescence in new work (prevention)	Eff-Shield+	No VOC admixture added 1:100 to the mixing water of grout, screeds, adhesives and mortar to help reduce efflorescence.
Salt attack, spalling & dusting soft stone	Condense Plus	Helps strengthen soft sandstone and limestone. Follow with **Aqua-Seal Gold+**.
Picture framing & mineral staining (new stone)	Condense Plus · Ultra-Block	Six-sided / dip seal the stone (face, back and edges) before installing.
Grout haze & cement residue	Haze Away	Lifts cement, latex and epoxy grout haze within 10 days of grouting.
Light surface residue & marks	MicroScrub	Gentle scouring cream. Not for polished surfaces. Always test first.
Dirty, stained grout lines	Grout Clean+ (small areas)	Spray, agitate with a grout brush and rinse. Seal grout afterwards with **Aqua-Seal Gold+** or **Spray'N'Seal (For Small Areas)**.
Soap scum & hard water marks	XtremeClean+	Then keep on top of it with **EzyClean+**. **AquaShield+** helps resist build-up on shower glass.
Heavy grime, BBQ grease, old wax & finishes	Stone Wash+ · XtremeClean+	Rinse twice. Re-seal if water soaks in quicker than before.
Smoke, soot & red soil marks	Blast HD	Acidic gel: acid-resistant surfaces only. Never on marble, limestone, travertine or terrazzo.
Old sealers & coatings	Aqua-Strip · Strip-It	Strip worn or failed sealers before re-sealing.
Slippery wet tiles	Grip-It T	Anti-slip treatment for ceramic, porcelain and tessellated tiles only. Test first.
Odours & germs (bathrooms, pet areas)	EzyClean+	Use at 1:40 and leave wet for 10 minutes to disinfect. No rinsing needed.

Stain removal tips: work from the outside of the stain in · blot, don't rub · never mix chemicals · wear gloves and eye protection.
