### Poulitice Plus™

#### Stain Remover Paste

- Safe For All Natural & Engineered Stone;
- Premixed Paste - Easy To Use - No Fumes;
- Helps Remove Deep Set Oil, Grease and Food Stains.

## Stain Removal - Quick Guide Only. Read product label first

Porous natural stone will stain from grease, oil, coffee, tea etc

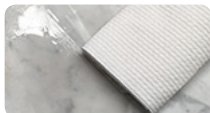

Step 1 - Apply Poulitice Plus to the stained area (overlap stain).

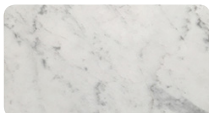

Step 2 - Allow to dry then remove with plastic spatula.

Step 3 - Mist clean water over dried paste residue.

Step 4 - Scrub with white nylon pad, then rinse & wipe dry.

After stain has been removed, seal with Aqua-Seal STS sealer.

## Stone Bench Tops, Bar Tops & Tables

The timeless beauty of natural & engineered stone has made these materials a favourite choice for bench tops, table tops, bar tops, coffee tables & outdoor furniture. Natural stone is porous and will require sealing and proper care & maintenance to help preserve its look. All spills should be wiped up immediately to help avoid staining or etching of the stone surface. Abrasive or acid based products should NOT be used as these will damage.

**Tips:** Outdoor tables should be covered when not in use. Coasters should be used to help prevent stains, scratches & etch marks.

## Sealers - Natural & Enhanced Look

### Aqua-Seal Gold+™

#### Premium Natural Look Sealer - Rapid Seal

- **MAXIMUM** Stain Resistance Against Oil & Food;
- Non Flammable - Non Yellowing - Non Coating;
- *Rapid Seal™* - UV Resistant - Inhibits Mould & Mildew

Enhance'N'Seal™

Aqua-Seal Gold™  
Spray'N'Seal™

## Sealing - Quick Guide Only. Read product label first

**Step 1** - Clean the surface to be sealed and allow to dry.

**Step 2** - Wipe surface dry with clean paper or cloth towels.

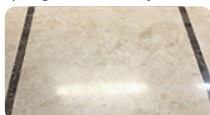

**Step 3** - Apply sealer to clean sponge. Remove any excess.

**Step 4** - Thoroughly work the sealer in to the stone.

**Step 5** - After 5-10 minutes, wipe surface completely dry.

**Step 6** - Stone surface sealed with no visible residue.

# Etch & Stain Removal Guide

The below listing is a general recommendation for stain removal. The degree of success will be determined by factors including but not limited to type of surface stained, length of time stain has been in place and whether the surface stained is sealed or unsealed.

Stains	Recommended Product	Alternative Product
Coffee, Tea & Tobacco	Poultice Plus	Active Plus
Oil, Mayonnaise & Mustard	Poultice Plus	XtremeClean
Leaf Stains / Tannin	Active Plus	XtremeClean
Wine	Poultice Plus	Active Plus

Refer to [www.aqua-seal.com.au](http://www.aqua-seal.com.au) for a comprehensive list of stains and detailed information or alternative recommendation on stain removal.

## Accessories

## Restoration - To remove etch marks

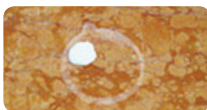

### Re-Shine™ Stone Re-Polishing Cream

- Restore Shine - Re Polish Etch Marks & Scratches;
- Easy To Use - Ideal For Small Areas and Table Tops;
- Use for Polished Marble, Limestone and Travertine.

Acid based products e.g. wine, vinegar, lemon juice etc. will etch stone surfaces.

**Step 1** - Apply a small amount of Re-Shine™ directly to the etched or scratched area.

**Step 2** - Mist a small amount of water then buff with cotton or terry towel.

**Step 3** - Buff until the cream becomes clear & nearly dries; **DO NOT ALLOW TO DRY**

**Step 4** - Re-wet surface with clean water to flush, then polish dry with clean towels.

Polished surface restored and light scratches & etch marks removed. Re-seal area.

Available from:

Aqua-Seal STS™ Sealers are suitable for food preparation and serving areas.

**Important Note:** For all products read entire label, SDS & Technical Bulletin before using. **TEST A SMALL AREA** to determine the ease of application and desired results.
