Section 1 - Identification of The Material and Supplier

Sealers Plus **Phone: +61 2 9521-4000**
Unit 5, 5 Clerke Place **support@sealersplus.com.au**
Kurnell NSW 2231 Australia **http://www.sealersplus.com.au**

Chemical nature: Water solution of detergents and other ingredients.
Trade Name: **AQUAGUARD**
Product Code: 110-000
Product Use: Spray type cleaner and re-sealer.
Creation Date: February, 2013
This version issued: **October 2026** and is valid for 5 years from this date.

Poisons Information Centre: Phone 13 11 26 from anywhere in Australia

Section 2 - Hazards Identification

This material is not classified as hazardous according to the criteria of Safe Work Australia GHS 7.

Not a Dangerous Good according to the Australian Dangerous Goods (ADG) Code, IATA and IMDG criteria.

SUSMP Classification: None allocated.

GHS Signal word: NONE. Not hazardous.

PREVENTION

Keep out of reach of children.
Avoid breathing fumes, mists, vapours or spray.

RESPONSE

If eye irritation persists: seek medical attention.
Rinse skin or shower with water.
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
In case of fire: product is not combustible. Use extinguishing media suited to the surrounding fire.

STORAGE

Store packages of this product in a cool place.
Make sure the product does not come into contact with incompatible materials listed in Section 10.
Some liquid preparations settle or separate on standing and may require stirring before use.
Check packaging for further storage instructions on the label.

DISPOSAL

Dispose of small quantities and empty containers by wrapping with paper and putting in general waste.
For larger quantities, if recycling or reclaiming is not possible, use a commercial waste disposal service.

Emergency Overview

Physical Description & colour: Clear to amber liquid.

Odour: Mild fragrance.

Major Health Hazards: No significant risk factors have been found for this product.

Potential Health Effects

Inhalation: Short term exposure: Significant inhalation exposure is considered unlikely. Available data indicates this product is not harmful and is unlikely to cause discomfort or irritation. Long term exposure: No data for health effects associated with long term inhalation.

Skin Contact: Short term exposure: Available data indicates this product is not harmful and should present no hazard in normal use. Long term exposure: No data for health effects associated with long term skin exposure.

Eye Contact: Short term exposure: Exposure via eyes is considered unlikely. This product may be irritating to eyes, but is unlikely to cause more than mild transient discomfort. Long term exposure: No data for health effects associated with long term eye exposure.

Ingestion: Short term exposure: Significant oral exposure is considered unlikely; this product is unlikely to cause irritation problems in the short or long term. Long term exposure: No data for health effects associated with long term ingestion.

Carcinogen Status: SWA: No significant ingredient is classified as carcinogenic by SWA. NTP: No significant ingredient is classified as carcinogenic by NTP. IARC: No significant ingredient is classified as carcinogenic by IARC.

Section 3 – Composition and Information on Ingredients

Ingredients	CAS No	Conc, %	TWA (mg/m³)	STEL (mg/m³)
Non-hazardous detergents	Secret	1-3	Not set	Not set
Other non-hazardous ingredients	Secret	1-3	Not set	Not set
Water	7732-18-5	To 100	Not set	Not set

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non-hazardous ingredients are also possible.

The TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The STEL is an exposure value that should not be exceeded for more than 15 minutes and should not be repeated more than 4 times per day, with at least 60 minutes between successive exposures.

The SWA TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equalled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak" is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

Section 4 - First Aid Measures

General Information:

You should call The Poisons Information Centre if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 11 26 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Have this SDS with you when you call.

Inhalation: First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.

Skin Contact: No specific health data is available for this product. If any unusual symptoms become evident, wash skin with water and contact a Poisons Information Centre or a doctor.

Eye Contact: No effects expected. If irritation occurs, flush contaminated eye(s) with lukewarm, gently flowing water for 5 minutes or until the product is removed. Obtain medical advice if irritation becomes painful or lasts more than a few minutes.

Ingestion: First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.

Section 5 - Fire Fighting Measures

Fire and Explosion Hazards: There is no risk of an explosion from this product under normal circumstances if it is involved in a fire. Only small quantities of decomposition products are expected at temperatures normally achieved in a fire; this will only occur after heating to dryness. Fire decomposition products may be toxic if inhaled - take appropriate protective measures.

Extinguishing Media: Not combustible. Use extinguishing media suited to the surrounding fire.

Fire Fighting: If a significant quantity of this product is involved in a fire, call the fire brigade.

Flash point: Does not burn.

Upper Flammability Limit: Does not burn.

Lower Flammability Limit: Does not burn.

Autoignition temperature: Not applicable - does not burn.

Flammability Class: Does not burn.

Section 6 - Accidental Release Measures

Accidental Release: This product is sold in small packages, and accidental release is not usually a cause for concern. For minor spills, clean up, rinse to sewer and put empty container in garbage. Although no special protective clothing is normally necessary for occasional minor contact, it is good practice to wear impermeable gloves when handling chemical products. In the event of a major spill, prevent spillage from entering drains or waterways and call emergency services.

Section 7 - Handling and Storage

Handling: Keep exposure to this product to a minimum, and minimise quantities kept in work areas. Check Section 8 for details of personal protective measures and ensure those measures are followed. Follow the measures detailed under Storage during handling to minimise risks to persons using the product in the workplace. Avoid contact or contamination of product with incompatible materials listed in Section 10.

Storage: Store packages of this product in a cool place. Make sure the product does not come into contact with substances listed under Materials to Avoid in Section 10. Some liquid preparations settle or separate on standing and may require stirring before use. Check packaging for further storage instructions on the label.

Section 8 - Exposure Controls and Personal Protection

The following Australian Standards will provide general advice regarding safety clothing and equipment: Respiratory equipment: AS/NZS 1715 and AS/NZS 1716, Protective Gloves: AS 2161, Occupational Protective Clothing: AS/NZS 4501, Industrial Eye Protection: AS 1336 and AS/NZS 1337, Occupational Protective Footwear: AS/NZS 2210.

SWA Exposure Limits	CAS No	TWA (ppm)	TWA (mg/m³)	STEL (mg/m³)
No ingredients with established exposure limits		Not set	Not set	Not set

Exposure limits: Exposure limits have not been established by SWA for any of the significant ingredients in this product.

Ventilation: No special ventilation requirements are normally necessary for this product; ensure the work environment remains clean and that vapours and mists are minimised.

Eye Protection: Eye protection such as protective glasses or goggles is recommended when the product is being used.

Skin Protection: Available data indicates this product is not harmful and normally no special skin protection is necessary. However, routinely avoid contact with all chemical products and wear suitable gloves (preferably elbow-length) when handling this product.

Protective Material Types: Suggested protective clothing materials: rubber, PVC.

Respirator: Usually no respirator is necessary when using this product. If in doubt, consult the Australian Standards mentioned above.

Section 9 - Physical and Chemical Properties:

Physical Description & colour:	Clear to amber liquid.
Odour:	Mild fragrance.
Boiling Point:	Approximately 100°C at 100 kPa.
Freezing/Melting Point:	Approximately 0°C.
Volatiles:	Water component.
Vapour Pressure:	2.37 kPa at 20°C (water vapour pressure).
Vapour Density:	No data.
Relative Density:	No data.

Water Solubility:	Completely soluble in water.
pH:	Approximately 10.
Volatility:	No data.
Odour Threshold:	No data.
Evaporation Rate:	No data.
Coefficient of Oil/Water Distribution:	No data.

Section 10 - Stability and Reactivity

Reactivity: This product is unlikely to react or decompose under normal storage conditions. If in doubt, contact the supplier for advice on shelf life properties.

Conditions to Avoid: None known.

Incompatibilities: No particular incompatibilities.

Fire Decomposition: Only small quantities of decomposition products are expected at temperatures normally achieved in a fire, and this will only occur after heating to dryness. Decomposition products may include carbon dioxide, and if combustion is incomplete, carbon monoxide and smoke, plus water. Carbon monoxide poisoning produces headache, weakness, nausea, dizziness, confusion, dimness of vision, disturbance of judgment, and unconsciousness followed by coma and death.

Polymerisation: This product is unlikely to undergo polymerisation processes.

Section 11 - Toxicological Information

Target Organs: No data to hand indicating any particular target organs.

Classification of Hazardous Ingredients: No ingredient mentioned in the HSIS database is present in this product at hazardous concentrations.

Section 12 - Ecological Information

Ecotoxicity: No specific ecotoxicity data available for this product.

Section 13 - Disposal Considerations

Disposal: Dispose of small quantities and empty containers by wrapping with paper and putting in general waste. For larger quantities, if recycling or reclaiming is not possible, use a commercial waste disposal service.

Section 14 - Transport Information

UN Number:	None allocated
Proper Shipping Name:	Not applicable - not classified as a Dangerous Good.
DG Class:	None allocated
Subsidiary Risk:	None allocated
Packing Group:	None allocated
Hazchem Code:	None allocated

ROAD AND RAIL TRANSPORT

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods (ADG) Code.

MARINE TRANSPORT

Not classified as Dangerous Goods by the criteria of the IMDG Code.

AIR TRANSPORT

Not classified as Dangerous Goods by the criteria of the IATA Dangerous Goods Regulations.

Section 15 - Regulatory Information

AICIS: All of the significant ingredients in this product are listed on the Australian Industrial Chemicals Introduction Scheme (AICIS) inventory.

Poisons Schedule: None allocated.

Section 16 - Other Information

This SDS contains only safety-related information. For other data see product literature (AquaGuard Technical Bulletin and label).

This revision supersedes the February, 2021 SDS.

Changes in this revision: new Sealers Plus SDS format; supplier address and contact details updated to Kurnell NSW; hazard communication aligned with GHS Revision 7.

Acronyms:

ADG Code	Australian Code for the Transport of Dangerous Goods by Road and Rail
AICS/AIIC	Australian Inventory of Industrial Chemicals
AICIS	Australian Industrial Chemicals Introduction Scheme
SWA	Safe Work Australia, formerly ASCC and NOHSC
CAS number	Chemical Abstracts Service Registry Number
Hazchem Code	Emergency action code of numbers and letters that provide information to emergency services especially firefighters
SUSMP	Standard for the Uniform Scheduling of Medicines & Poisons
TWA / STEL	Time Weighted Average / Short Term Exposure Limit
UN Number	United Nations Number

THIS SDS SUMMARISES OUR BEST KNOWLEDGE OF THE HEALTH AND SAFETY HAZARD INFORMATION OF THE PRODUCT AND HOW TO SAFELY HANDLE AND USE THE PRODUCT IN THE WORKPLACE. EACH USER MUST REVIEW THIS SDS IN THE CONTEXT OF HOW THE PRODUCT WILL BE HANDLED AND USED IN THE WORKPLACE.
IF CLARIFICATION OR FURTHER INFORMATION IS NEEDED TO ENSURE THAT AN APPROPRIATE RISK ASSESSMENT CAN BE MADE, THE USER SHOULD CONTACT THIS COMPANY SO WE CAN ATTEMPT TO OBTAIN ADDITIONAL INFORMATION FROM OUR SUPPLIERS.
OUR RESPONSIBILITY FOR PRODUCTS SOLD IS SUBJECT TO OUR STANDARD TERMS AND CONDITIONS, A COPY OF WHICH IS SENT TO OUR CUSTOMERS AND IS ALSO AVAILABLE ON REQUEST.

Please read all labels carefully before using product.

This SDS is prepared in accord with the SWA document "Preparation of Safety Data Sheets for Hazardous Chemicals - Code of Practice" (July 2020) and GHS Revision 7.
