

## Grout

Grout can be either cement based or epoxy and is available in many colours. It is used in the joints of tile and stone installations. A clean grout will ensure a overall pleasing aesthetic look to the whole tile or stone application. Cement based grout is porous and can stain. This will compromise the look of a tile and stone installation. Our sealing and maintenance options below are formulated to ensure that grout is protected and that the ongoing maintenance is made easier.

### Sealing

Purpose: To help protect porous grout from staining and ease ongoing maintenance.

Desired Look	Stain Resistance	Product Options	# Coats	Coverage Per 4 litre Per Coat	Important Notes
Natural Look	Best	<b>Aqua-Seal Gold™</b>	2	100 - 300 m <sup>2</sup>	Best recommendation for maximum stain resistance and food areas. Will also seal surrounding porous tile & stone.
Natural Look	Better	<b>Aqua-Seal Silver™</b>	2	100 - 300 m <sup>2</sup>	Next best recommendation for good stain resistance and food areas. Will also seal surrounding porous tile & stone.
Natural Look	Good	<b>Aqua-Seal Bronze™</b>	2	100 - 300 m <sup>2</sup>	Where basic stain resistance is required. Will also seal surrounding porous tile & stone.
Natural Look	Best	<b>Spray'N'Seal™</b>	2	30 - 50 m <sup>2</sup>	Quick spray application. For maximum stain resistance and food areas. Will also seal surrounding porous tile & stone.
Natural Look	Best	<b>Grout Seal Pro™</b>	2	100 - 300 m <sup>2</sup>	Quick spray application. For maximum stain resistance and food areas. Will NOT seal surrounding porous tile & stone. ONLY for grout.
Enhanced Look	Best	<b>Enhance'N'Seal™</b>	2	100 - 300 m <sup>2</sup>	To darken & enhance grout colour plus seal. Best recommendation for maximum stain resistance & food areas. Will also darken & seal surrounding porous tile & stone. Enhancement cannot be reversed.

Note: Sealers are not waterproofing agents and do not protect against etching by acid based contaminants or harsh chemicals.

### Sealing & Re-Colouring

Purpose: To re-colour and protect porous grout from staining and ease ongoing maintenance.

Desired Look	Stain Resistance	Product Options	# Coats	Coverage Per 250 ml Per Coat	Important Notes
Coloured	Best	<b>Renue'N'Seal™</b>	1 - 2	10 - 60 m <sup>2</sup>	To renew, re-colour & seal existing grout. Provides even & consistent colour. Best recommendation for maximum stain resistance & food areas.

Note: Sealers are not waterproofing agents and do not protect against etching by acid based contaminants or harsh chemicals.

### Maintenance

Purpose: To safely maintain a clean grout surface and to preserve it's beauty and integrity

Type of Maintenance	Product Options	Important Notes
Routine Cleaning	<b>EzyClean™</b>	Highly-concentrated. Neutral pH. Safe for everyday / regular use.
Routine Cleaning & to help prolong existing sealer	<b>Boost™</b>	One step clean and re-seal formula. Boosts sealer performance & longevity.
Heavy Duty Cleaning	<b>XtremeClean™</b>	Heavy duty cleaner & degreaser. Contains no acid. Safe on stone, tile & grout. Will remove wax-type finishes. Use on heavily soiled and neglected areas.
Heavy Duty Cleaning - Large Commercial Areas	<b>Deep Clean Pro™</b>	Two part heavy duty cleaner & degreaser. Contains no acid. Safe on stone, tile & grout. Will remove wax-type finishes. Use on heavily soiled and neglected areas.
Heavy Duty Cleaning - Spray	<b>Grout Clean Pro™</b>	Spray on heavy duty cleaner. Contains no acid. Safe on stone, tile & grout. Will remove wax-type finishes. Use on soiled and neglected areas.

Note: Do not use abrasive or acid based products

These recommendations are intended as general guidelines for sealing and maintenance. Read product directions thoroughly prior to use. Always test first.
