

Natural Stone Tables

The timeless beauty of **natural stone** has made this material a favourite choice for a vast range of tables. Natural stone tables are made from a variety of natural stones. The most common stones used are marble, limestone or travertine and in a variety of finishes from **polished** (shiny) to **honed** (satin or matt). As natural stone is porous, it will require sealing and proper care & maintenance to help preserve its look. These tables are sealed in the factory at time of manufacture using the best range of sealers available from **Aqua-Seal STS™**. To help maintain the beautiful finish of these tables, coasters should be used to help prevent stains, scratches & etch marks. All spills should be wiped up immediately to help avoid staining or etching of the stone surface. Abrasive or acid based products should **NOT** be used as these will damage the stone surface.

Sealing - Purpose: To help protect porous surface from staining and ease ongoing maintenance.

Desired Look	Stain Resistance	Product Name	# Coats	Coverage Per 250ml Per Coat*	Important Notes
Natural Look	Best	<u>Aqua-Seal Gold+</u>	2	3 - 5 m ²	Best recommendation for a natural look & maximum stain resistance. Ideal for residential, commercial, high traffic and also for food areas. Will also seal surrounding porous grout.
Natural Look (Small Areas)	Best	<u>Spray'N'Seal</u>	2	3 - 5 m ² (Per 450ml can)	Best recommendation for small areas. For a natural look & maximum stain resistance. Ideal for residential, commercial, high traffic & also for food areas. Will also seal porous grout.
Colour Enhanced Look	Best	<u>Enhance'N'Seal</u>	2	3 - 5 m ²	Best recommendation for a colour enhanced/darkened look & maximum stain resistance is required. Ideal for residential, commercial, high traffic & also for food areas. Will also seal & enhance porous grout. Enhancement cannot be reversed.

Note: Sealers are not waterproofing agents and do not protect against etching by acid based contaminants or harsh chemicals.

Maintenance - Purpose: To safely clean & maintain the surface and to preserve it's beauty & integrity.

Type of Maintenance	Product Name	Important Notes
Regular Cleaning	<u>EzyClean</u>	Highly-concentrated everyday cleaner for all natural stone, encaustic, ceramic and porcelain tiles. Neutral pH formula. Rinse free, streak free formula. Fresh lemon scent.
Heavy Duty Cleaning	<u>XtremeClean</u>	Highly concentrated heavy duty cleaner and degreaser for all natural stone, grout, encaustic, ceramic and porcelain tiles etc. Use as a periodic heavy duty cleaner and on heavily soiled and neglected areas.
Cleaning & Re-Sealing - Tops	<u>AquaGuard</u>	Highly-concentrated one step cleaner and re-sealer. Safe for everyday/regular use. Use on sealed surfaces to prolong the performance and longevity of existing sealer.
Cleaning & Deodorising - Tops	<u>Clean'N'Gleam</u>	Highly-concentrated one step cleaner and re-sealer. Safe for everyday/regular use. Use on sealed surfaces to prolong the performance and longevity of existing sealer.

Note: Do not use abrasive or acid based products.

Stain Removal - When **Poultice Plus** does not effectively remove a stain, the following recommended products used in conjunction with **Poultice Powder** have been shown to produce successful results.

Stain	Recommended Product	Alternative Product	Notes
Coffee, Tea, Wine	<u>Poultice Plus</u> or <u>Strip-It</u>	<u>XtremeClean</u>	Remove etch mark with <u>Hone 400</u> , <u>ReShine</u> or <u>5X Pro</u> depending on finish of the table
Cooking Oil, Grease	<u>Poultice Plus</u> or <u>XtremeClean</u>	<u>Strip-It</u>	Remove etch mark with <u>Hone 400</u> , <u>ReShine</u> or <u>5X Pro</u> depending on finish of the table

Note: For a comprehensive list of stains and recommended stain removal products, please visit and download from <https://aqua-seal.com.au/stain-removal-guide/>

Etch Removal - To remove etch marks and restore the polished or honed finish to the stone. Etch marks are caused by acid based contaminants eg wine, coffee, tea, salad dressings, citrus, vinegar, soft drinks etc

Table Finish	Recommended Product	Alternative Product	Notes
Polished Finish	<u>ReShine</u>	<u>5X Pro</u>	Remove etch mark with <u>ReShine</u> or <u>5X Pro</u> and restore a polished finish to the table
Honed (Flat) Finish	<u>Hone 400</u>	N/A	Remove etch mark with <u>Hone 400</u> and restore a matt/flat finish to the table

These recommendations are intended as general guidelines for sealing and maintenance. Read product label, technical bulletin & SDS thoroughly prior to use. Always test first. Keep floors dry to prevent slip falls. * All coverages are approximate and only as a guide. Coverage will vary depending on surface density, porosity, texture and absorption. Also weather conditions, the application method and number of coats required.
