AquaShield+

Premium Glass & Shower Tile Sealer – Nano Easy-Clean Coating

+ Helps Reduce Build-Up of Soap Scum, Dirt, Hard Water & Lime Scale
+ Water Beads & Runs Off – Glass Stays Clearer for Longer
+ Makes Regular Cleaning Quicker & Easier
+ Shower Screens, Glass Splashbacks, Mirrors & Windows
+ Wipe On, Polish Off – Ready in 1 Hour

Product page, SDS & more

DESCRIPTION

AquaShield+ is a premium, nano-technology easy-clean coating for glass and glazed shower tiles. It forms an ultra-thin, invisible water repellent film that helps reduce the build-up of soap scum, dirt, hard water marks and lime scale, so glass stays clearer for longer and is quicker and easier to clean.

WHAT DOES IT DO

The nano coating bonds to the glass as a thin, clear, water repellent layer. Water beads and runs off instead of drying on the surface, which helps reduce the soap scum, mineral and lime scale deposits that cloud shower screens and glass. Grime is easier to wipe away with a pH-neutral cleaner.

SUITABLE FOR

All glass surfaces, including shower screens, glass splashbacks, mirrors, windows and glass roofs, plus glazed shower wall tiles. **NOT for floors** – the coating makes surfaces slippery.

Surfaces
+ Shower Screens
+ Glass Splashbacks
+ Mirrors
+ Windows & Glass Roofs
+ Glazed Shower Wall Tiles

Where
+ Bathrooms & Ensuites
+ Kitchens
+ Indoor & Outdoor
+ Domestic & Commercial
+ Walls & Glass Only – NOT Floors

WHERE TO USE

Indoor and outdoor, domestic and commercial glass: homes, apartments, hotels, gyms, offices and amenities. Not for floor use.

TEST FIRST

Due to the nature of different surfaces, do test areas in an inconspicuous spot following the label instructions to check the result. End user must determine suitability of product for their own use.

WHAT YOU NEED BEFORE YOU START

- Protective gloves and eye protection; good ventilation;
- **XtremeClean+** or **OxiTreat+** to clean and prepare the glass;
- Clean, dry, lint-free absorbent cloths (one to apply, a new one to polish off).

PREPARATION

- **New glass:** clean with **XtremeClean+** as per label;
- **Existing glass:** use **XtremeClean+** or **OxiTreat+**, depending on the amount of dirt or soap scum;
- Rinse well and wipe the surface **COMPLETELY DRY**. The glass must be clean, dry and free from any sealers and coatings.

HOW TO USE

1. Clean and wipe the surface **COMPLETELY DRY**;
2. Spray **AquaShield+** liberally onto the glass or mirror surface;
3. Using a clean, dry, absorbent cloth, work in a circular motion over the whole glass area, overlapping as you go;
4. Allow the film to dry (approx. 3 – 5 minutes);
5. When dry, polish off the residue **COMPLETELY** with a new, clean, dry absorbent cloth;
6. Keep dry for minimum 1 hour.

DO NOT USE ON FLOORS

Do NOT apply to floors or let overspray settle on the floor – it will become slippery. Cover or protect the shower base and floor and wipe up any drips straight away.

DRYING & CURING (20°C)

Film dry, ready to polish off	**3 – 5 minutes**
Keep dry	**Min. 1 hour**

EXPECTED WEAR & MAINTENANCE

Wear depends on use and on the frequency and type of cleaning products. Harsh cleaning methods, abrasive pads, pressure washing, high alkaline, acidic or solvent-based cleaners and weather exposure all affect wear and performance. Exterior and high use areas need more frequent application. When water no longer beads, **re-apply as necessary**.

+ **EzyClean+** – routine, everyday rinse-free cleaning;
+ **XtremeClean+** – periodic heavy duty cleaning.

AquaShield+

Premium Glass & Shower Tile Sealer – Nano Easy-Clean Coating

PRECAUTIONS & SAFETY DIRECTIONS

1. Always test first;
2. Read entire label, SDS and technical bulletin before using;
3. **Highly flammable:** keep away from heat, sparks, open flames and hot surfaces. No smoking;
4. Use only in a well ventilated area. Avoid breathing vapour or spray mist;
5. Wear protective gloves and eye protection;
6. Surface must be clean, dry and free from any sealers and coatings;
7. Use when surface temperature is between 4°C and 25°C;
8. Do NOT use on floors or allow to settle on floors – floor will become slippery.

APPROXIMATE COVERAGE

Pack	m² of glass per pack (1 application)	m² per Litre
50 mL	**approx. 4 – 5**	approx. 80 – 96
125 mL	**approx. 10 – 12**	approx. 80 – 96

Coverage is **approximate only**. It depends on the condition of the glass, the application method and how liberally it is applied.

TECHNICAL DATA

Product type	Solvent based (alcohol) nano easy-clean glass coating
Finish	Invisible, clear; water repellent
Appearance	Clear, colourless liquid
pH	approx. 2 (as supplied)
Flash point	16°C – highly flammable
Application	4°C – 25°C; keep dry 1 hour
Pack sizes	50 mL · 125 mL
Transport	Dangerous Good: UN1170 Ethanol Solution, Class 3, PG II (Hazchem 2YE)
SDS	sealersplus.com.au/sds/AquaShield-Plus-SDS.pdf

RELATED PRODUCTS

+ **XtremeClean+** – prepare new or existing glass;
+ **OxiTreat+** – remove heavy soap scum and lime scale first;
+ **EzyClean+** – everyday rinse-free cleaning.

DANGER

Highly flammable liquid and vapour (H225). Harmful if swallowed (H302). Causes skin irritation (H315) and serious eye irritation (H319). May cause respiratory irritation (H335). Keep away from heat, sparks and open flames – no smoking. Keep container tightly closed. Use only outdoors or in a well ventilated area. Do not eat, drink or smoke when using. Wear gloves and eye protection. IF SWALLOWED: call a Poisons Centre or doctor if you feel unwell. IF IN EYES: rinse cautiously with water for several minutes. Keep out of reach of children.

LIMITATIONS

- Will NOT prevent surface wear, scratching or etching from harsh or acidic chemicals;
- A protective coating, not a membrane. Not a substitute for a compliant damp-proof membrane, drainage or correct substrate preparation;
- Not for floors or any walking surface.

HANDLING, STORAGE & CLEAN UP

- Close container tightly after each use. Store in a cool, well ventilated place between 4°C and 25°C, away from heat and ignition sources;
- Clean tools with solvent (e.g. methylated spirits) before the product dries;
- Do not re-use container. Discard in rubbish.

FIRST AID

Contact a doctor or Poisons Information Centre (Australia Ph: 13 11 26, NZ Ph: 0800 764 766). **Eyes:** rinse with plenty of water, lifting the eyelids, for at least 15 minutes and get medical attention. **Skin:** wash with soap and water; remove soaked clothing. **Inhalation:** move to fresh air; get medical attention if symptoms persist. **Ingestion:** do NOT induce vomiting; get medical attention.
