Industrial Strength Cleaner & Heavy Duty Problem Solver Gel

+ Industrial Strength – Fast Acting Problem Solver
+ Helps Remove Smoke, Soot, Bore Water & Red Soil Marks
+ Removes Grout Haze, Efflorescence & Mineral Deposits
+ Concentrated – 4 L Makes Up to 84 L
+ For Acid Resistant Hard Surfaces Only

Product page, SDS & more

DESCRIPTION

Blast HD is a fast acting, **Professional Grade** industrial strength problem solver formulated to help remove smoke, soot, hydrocarbons, bore water stains, mineral deposits and red soil marks.

WHAT DOES IT DO

Ideal to clean and remove grout haze and efflorescence. Also effective on extreme built-up grime and dirt where other cleaning products have not been as effective. Can also be used to etch concrete.

SUITABLE FOR

Use only on **acid resistant** hard surfaces, e.g. porcelain, ceramic, tessellated and quarry tiles, bricks, pavers, terracotta, engineered stone, acid resistant natural stone and terrazzo. **Do NOT use** on acid sensitive natural stone (e.g. marble, limestone, travertine) or other acid sensitive surfaces.

WHERE TO USE

Indoor, outdoor, domestic and commercial areas, e.g. homes, hotels, motels, resorts, schools, aged care, holiday parks, shopping and retail outlets, restaurants and bars.

TEST FIRST

Always test first in an inconspicuous area to determine ease of application, dilution rate, dwell time, colour stability and desired results. End user must determine suitability of product for their own use.

WHAT YOU NEED BEFORE YOU START

1. Protective gloves, eye, skin and foot protection. Remove all jewellery;
2. Plastic bucket (never metal) and clean water;
3. White nylon pad, scrub brush, grout brush or scrub machine;
4. Wet vac or mop plus plenty of clean water for rinsing.

HOW TO DILUTE & USE

Always add **Blast HD** to clean water to prevent splashing. **Per 4 L of water in a plastic bucket:**

Use	Add Blast HD	Total mixed
Light cleaning – 1:20	200 mL	4.2 L
Moderate cleaning – 1:10	400 mL	4.4 L
Heavy duty cleaning – 1:5	800 mL	4.8 L
Extreme cleaning – 1:2	2 L	6 L

1. Sweep, vacuum or wipe the surface;
2. Dilute as per the table above, depending on cleaning requirements;
3. Carefully apply the diluted solution to the surface;
4. Allow a minimum dwell time of 10 minutes;
5. DON'T ALLOW PRODUCT TO DRY ON SURFACE – ADD MORE DILUTED PRODUCT TO KEEP WET AND ACTIVE;
6. Scrub with a white nylon pad, scrub brush or scrub machine. For dirty grout joints scrub with a grout brush;
7. Remove the dirty solution with a wet vac or mop;
8. Rinse thoroughly with clean water – it is very important to remove all acid residue;
9. Repeat the process as necessary.

LIMITATIONS

- Heavily soiled surfaces may need a longer dwell time and/or stronger solution, or may need resurfacing or replacing;
- Badly stained grout may need re-grouting or re-colouring with **Colour'N'Seal**;
- Does NOT remove deep set oil or food stains. See sealersplus.com.au for other stain removal and problem solving products.

Industrial Strength Cleaner & Heavy Duty Problem Solver Gel

PRECAUTIONS & SAFETY DIRECTIONS

1. Read entire label, SDS & technical bulletin before using;
2. Wear gloves, skin and eye protection – causes severe skin burns and eye damage;
3. Do NOT breathe fumes, mist, vapours or spray. Do NOT kneel in product;
4. Remove all jewellery before use;
5. Use when surface temperature is between 4°C & 32°C;
6. Do NOT allow contact with acid sensitive surfaces;
7. Do NOT mix in metal containers or with other chemicals;
8. May affect dark grouts, grout colourants and polished surfaces.

TECHNICAL DATA

Product type	Acid based heavy duty problem solver (concentrate)
Appearance	Clear yellow liquid, characteristic odour
pH	less than 4 (concentrate)
Dilution	1:20 to 1:2 (200 mL – 2 L per 4 L water)
Dwell time	Minimum 10 minutes
Shelf life	Approx. 3 years unopened – less after opening
Pack sizes	1 Litre · 4 Litre
Transport	Not a Dangerous Good
SDS	sealersplus.com.au/sds/Blast-HD-SDS.pdf

DANGER

POISON (S6). Hazardous (Safe Work Australia GHS 7). Not a Dangerous Good. **H314** Causes severe skin burns and eye damage. **H302** Harmful if swallowed. Do not breathe mist, vapours or spray. Wear protective gloves, protective clothing and eye/face protection. Do not eat, drink or smoke when using. Keep out of reach of children.

RELATED PRODUCTS

+ **OxiTreat+** – efflorescence & grout haze on acid resistant surfaces;
+ **Oxi Gel+** – cling gel for walls & vertical surfaces;
+ **Rust Away** – non-acidic rust remover incl. acid sensitive surfaces;
+ **XtremeClean+** – heavy duty cleaning & degreasing;
+ **Colour'N'Seal** – re-colour & seal badly stained grout;
+ **Aqua-Seal Gold+** – seal once clean and dry;

HANDLING, STORAGE & CLEAN UP

- Close container tightly after each use and keep upright. Store locked up in the original container between 4°C & 32°C in a well ventilated cool area, protected from sunlight;
- Shelf life approx. 3 years unopened – less after opening. Do not re-use container. Discard in rubbish;
- Clean tools and clothing with water before they dry.

FIRST AID

Immediately contact Poisons Centre (Australia Ph: 13 11 26, NZ Ph: 0800 764 766) or a doctor. **Ingestion:** Rinse mouth. Do NOT induce vomiting. Seek medical advice immediately. **Eyes:** Hold eyelids open and flush continuously with water for 15 minutes or until advised to stop by the Poisons Centre. **Skin & hair:** Remove contaminated clothing and flush skin and hair with running water. **Inhalation:** Move to fresh air. Get urgent medical assistance if breathing is affected.
