MicroScrub

Powerful Nano-Cream – New Generation Abrasive Cleaner

+ Ready to Use Nano-Cream – Pour, Scrub & Rinse
+ Removes Light Grout Haze, Incl. Light Epoxy Grout Haze
+ Removes Factory Porcelain Wax, Sealer Residue & Pencil Marks
+ Acid Free – for Acid-Sensitive Stone (Test First)
+ Boosts Any Sealers Plus Cleaner or Problem Solver

Product page, SDS & more

DESCRIPTION

MicroScrub is a powerful, **Professional Grade** nano-cream cleaner that is non-flammable and contains no VOCs (volatile organic compounds) or acids. Ideal to abrade away dirt and grime from heavily textured, hard to clean surfaces.

WHAT DOES IT DO

Its fine nano-abrasive helps remove most factory applied porcelain wax, floor finishes, light grout haze (including light epoxy grout haze), surface pencil marks, rust, mineral deposits and sealer residue. It can also be added to any cleaner or problem solver to boost its performance. Formulated not to affect penetrating (impregnating) sealers.

SUITABLE FOR

All natural stone (including acid-sensitive marble, limestone and travertine), grout, ceramic, porcelain, terracotta, Saltillo, quarry tiles, terrazzo, concrete, pavers and masonry surfaces.

WHERE TO USE

Walls and floors in domestic and commercial, indoor and outdoor areas.

TEST FIRST

Due to the nature of different surfaces, do several test areas in inconspicuous places to determine surface colour stability and desired results. Polished and dark surfaces may scratch or dull. The end user must determine the suitability of the product for their intended use.

WHAT YOU NEED BEFORE YOU START

1. Skin and eye protection;
2. White nylon pad, scrub brush or scrub machine (never a black or green pad on polished surfaces);
3. Spray bottle of clean water for walls;
4. Wet vac or mop plus plenty of clean water for rinsing.

HOW TO USE – FLOORS

1. Sweep, vacuum or wipe the surface;
2. Slightly pre-wet the surface and grout joints with clean water;
3. Pour approx. 1 – 2 cups (250 – 500 mL) of **MicroScrub** onto the pre-wet surface;
4. Scrub the surface with a white nylon pad, scrub brush or scrub machine;
5. DON'T ALLOW PRODUCT TO DRY ON SURFACE – ADD A LITTLE WATER TO KEEP WET AND ACTIVE;
6. Remove the dirty solution with a wet vac or mop;
7. Rinse thoroughly with clean water. Repeat as necessary.

HOW TO USE – WALLS & VERTICAL SURFACES

Pre-wet the surface by spraying water from a spray bottle, apply **MicroScrub** directly to a white nylon pad, then scrub. Wipe off and rinse thoroughly with clean water.

HOW TO USE AS A BOOSTER

Follow the directions of the cleaner or problem solver, then add **MicroScrub** to the standing solution just before scrubbing. Rinse thoroughly with clean water.

LIMITATIONS

- Will not remove deep set stains or contaminants below the surface;
- Removes surface sealers and finishes only – it will not remove penetrating sealers;
- Will not remove heavy or cured cement grout haze on acid resistant surfaces – use **OxiTreat+**.

MicroScrub

Powerful Nano-Cream – New Generation Abrasive Cleaner

PRECAUTIONS & SAFETY DIRECTIONS

1. Read entire label, SDS & technical bulletin before using;
2. Wear appropriate skin and eye protection;
3. Use when surface temperature is between 4°C & 32°C;
4. Do NOT allow product to contact any non-recommended surfaces;
5. Take care on dark coloured grout or stone, and on polished or glossy surfaces;
6. Keep floors dry to help prevent slips and falls.

TECHNICAL DATA

Product type	Ready to use nano-abrasive cream cleaner
Appearance	White opaque cream, slight odour
pH	approx. 8.5
Dilution	Use as is (do not dilute)
VOC / acids	None
Pack sizes	250 mL · 1 Litre
Transport	Not a Dangerous Good
SDS	sealersplus.com.au/sds/MicroScrub-SDS.pdf

ONGOING MAINTENANCE

+ **EzyClean+** – routine, everyday cleaning;
+ **Boost Plus** – routine cleaning that helps prolong sealer life;
+ **XtremeClean+** – periodic heavy duty cleaning;
+ **Aqua-Seal Gold+** – re-seal when water no longer beads.

CAUTION

Not classified as hazardous (Safe Work Australia GHS 7). Not a Dangerous Good. Avoid contact with eyes. Wear skin and eye protection. Keep out of reach of children.

RELATED PRODUCTS

+ **Haze Away** – grout haze inhibitor for the final grout wash;
+ **OxiTreat+** – heavy grout haze on acid resistant surfaces;
+ **Aqua-Strip** – light sealers, coatings & epoxy grout haze;
+ **Strip-It** – heavy duty sealer & coating remover;
+ **Rust Away** – rust stains on all surfaces;

HANDLING, STORAGE & CLEAN UP

- Close container tightly after each use. Store between 4°C and 32°C;
- Do not re-use container. Discard in rubbish;
- Clean tools and hands with clean water.

FIRST AID

Contact Poisons Centre (Australia Ph: 13 11 26, NZ Ph: 0800 764 766) or a doctor. **Ingestion:** Do NOT induce vomiting. Rinse mouth with water and give some water to drink. **Skin, hair & eyes:** Irritation is unlikely. If it occurs, flush with lukewarm, gently flowing water for 5 minutes or until the product is removed. **Inhalation:** First aid is not generally required. **General:** If irritation persists or you feel unwell, get medical advice.
